

### **Greetings in Jesus!**

Wow! It seems each month that goes by, there's more happening than the month before! This makes it seem that time is moving faster and faster each month.

I just want to thank those of you who help keep this ministry going in this late hour through your prayers and gifts of support. You guys are greatly appreciated!

### **World on the Brink...The Impending Monetary Crisis...**

The official report by our own government is that the US Government has gone bankrupt. Gold started this year at about \$800 per ounce. Went up to \$1000, then down a little. Gold and silver are doing what they are supposed to do – protecting against the carnage that was experienced in almost all financial assets around the world. Going into the **depression** of 2009, precious metals may well be the only safe harbor asset.

Canadian dollars went up 23%, the Australian dollar's up 29%, British pounds went up 34%, and the Icelandic krona went up 95%. This is because the American dollar went down.

Recently I had to go to my bank to order some more checks. While there, I asked the representative, "So, have you heard anything about this bank shutting down?" She said, "Not this bank, it's insured by the FDIC." This stands for the Federal Deposit Insurance Corporation. You know, sometimes you might even see a sign out in front of your bank stating, "Your money is insured to \$100,000." Well, she told me that it has now been changed and upgraded to \$250,000! "Temporarily," she said.

So, we can all trust in that, right? Well, guess what! Here's the facts...

There is \$13.3 trillion in US bank deposits in 8,451 US banks. The FDIC had less than \$35 billion in insurance funds at the end of the third quarter of last year, which was down 24%. In other words, they have 76 cents for every \$100 of insured deposits. That's less than 1%! This accounts for both your savings and checking accounts. These are just cosmetic false values to prevent you from running to the bank to take your money out. So if you are one of those fortunate ones who have some of that paper stuff in there, it might be a good idea to go get it now! Turn it into precious metals, then the Amerodollar is introduced next year, you should be okay. But the Federal Reserve notes may be worth nothing.

It's gotten much worse recently. All the data points to the fact that everything has fallen off the cliff. Are you ready for the "D" word? We are not in a recession. We are in a depression, the beginning of a depression the like of which has never been experienced before. Much worse than what took place in 1929. This actually started in December of 2008. When they tell you on the news we're in a recession, don't believe it. There's not a single bright spot in the economic data that would even remotely hint that things will get better any time soon.

And here's one reason why. It's global! It's not just here, we may have started much of it here, but now it's world-wide.

Then came 2009, after so much electronically-made fake bailout money. Citicorp stock dropped 77%, Bank of America dropped 66%, Royal Bank of Scotland dropped 92%. Everything has continued to drop. That was only with the first few weeks of this year. China is in panic. Jobs in America are being lost at a rate

of 600,000 per week. The so-called bailout has only added to the problem.

We hear words on the news daily about this. We hear words like "millions", "billions", and even "trillions" now. How much is a trillion dollars? If you were to be paid a dollar per minute, 60 minutes per hour, 24 hours a day, for 365 days a year, how long would it take for you to collect 1 trillion dollars? About 2 million years!

Was this collapse planned for? And was it planned for right now? You bet! During the last four years of the Bush administration, there was more money borrowed than all the other presidents combined since George Washington. So now that this country is so far in debt, what's the remedy for that? More debt? That's going in the wrong direction! The first law of holes is to stop digging!

What is the real battle? It's not financial, it's moral! America is in free-fall. We have the media masking the truth, the courts perverting justice, our schools are deliberately dumbing down our youth, we've replaced our heritage with multi-culturalism, revisionism, and values relativism (in other words, all values are relative). Our government has become the purveyor of immorality. That may shock you, but there's a very good reason for it. Why shouldn't we be surprised! Governments have always loved crises that provide the rationale for increasing budgets and bureaucracies, and subjugating the population. Most have been dictatorships, which we now have here in America within a small group (oligarchy). In our country, they learned a long time ago you don't need a military crisis. A social one will do.

Now the key insight here is to understand what creates a social crisis. Immorality! Whether it's HIV, abortion, corrupt government or whatever! It didn't take long for our government to realize it has an incentive to encourage immorality, which generates the social crises which increases the budgets, and you've got the whole loop closed. And what's the natural results of that? All three grow!

And that's where we are today. So where are we headed? Hyper inflation? The Amerodollar? That's what is scheduled for next year.

This has all happened before in history in many countries, and now world-wide. Let's just take a look at two in recent history. In Germany, from 1919 to 1923, food prices doubled every 49 hours! A loaf of bread in 1920 cost 1 mark; in 1923, it cost 726 million marks. In Greece, a similar thing happened, from 1943 to 1953. The price of things doubled every 48 hours.

There is a cycle of nations, also. We don't think of this very much, but we should. Nations go from bondage to spiritual faith, from spiritual faith to great courage, from courage to liberty, from liberty to abundance, from abundance to complacency, from complacency to apathy, from apathy to dependency, and from dependency back again to bondage. And that's where this nation is now.

But this time, we're in the latter part of the last generation! If you were to go to the average person in the street in America in this late hour, and ask the question, "What do you believe is the biggest problem in America, ignorance, or apathy?" The most common answer is, "I don't know and I don't care."

And that is why we as Christians now have the biggest opportunity in our lifetime to bring to these people the gospel of Jesus Christ!

What about Obama? This country has gone from freedom to fascism. What is the definition of fascism? According to Webster's dictionary, fascism means "any program for setting up a centralized, autocratic, national regime, exercising the regimentation of industry, commerce and finance, rigid censorship, and forceable suppression of opposition." Perhaps fascism should be called corporatism, because it is the merger of state and corporate power. And this is the platform of Obama and other world leaders in this late hour.

So, what are you to do? First of all, if you think your calling is in the things of this world, you must repent. Change your entire way of thinking. If you think your calling is to simply go to church on Sunday morning, and perhaps Sunday night, you need to repent. If you are a Christian, if you have had a true born-again experience, then you must seek the Lord through much prayer for your individual calling in ministry. Don't get off your face before the Lord until you know! And then immediately start doing it!

You and I are being plunged into a time about which the Bible says more than it does of any other period of history, including the time Jesus walked the shores of Galilee or climbed the mountains of Judea. You need to find out what's going on. You won't find it from the 10 o'clock news! Anyone who's been watching the media and knows where we are in the real time of God's time-clock understands the secular media has an agenda. And that agenda is not to keep you informed, but to shape opinions.

This should be understood as a form of treason. Put yourself in the place of Jeremiah. He's been known as the "weeping prophet". He wept because he saw his nation going down. You see the storm coming, but you can't stop it. So what are we to do? We are to warn others. We can each prayerfully discover our own specific calling, and get on with it! Time is short!

It's going to be exciting! People have been and will even more so become desperate and looking for answers. You have those answers! The works that you do between now and the time you enter heaven may be the most important works of your lifetime in the view of the Kingdom of God, that will last for all eternity.

The opportunities are, and will become, incredible! The question is, what are you going to do about it? These conditions are going to bring a mighty harvest. I've been a Christian for 35 years, and I've never seen the potential for believers to set up treasures in heaven more than what's going to be taking place in the months ahead. Do not only pray the Lord send workers into this field, be one yourself!

Some of the information here I have gleaned from Chuck Missler's most recent DVD entitled: **World on the Brink**. If you'd like to obtain this DVD, it's available for a gift of any amount this month.

### **Global Government Unleashed...!**

Back in the 80's, Gary Kah wrote the book, [En Route to Global Occupation](#). Back in those days, most prophecy teachers had thought the 10 toes of Daniel ch. 9 was referring to a 10 nation

confederacy out of Europe showing the end of this age. Not Gary! Because Gary was in the midst of things due to his job, he was rubbing shoulders with the New World Order boys and was able to learn of the plans of a 10 nation confederacy early on, and yes, Europe plays no small part, but this confederacy turned out to be 10 regions covering the entire planet. You saw in last month's newsletter the photo of that New World Order coin I use as a witnessing tool, the back side of which has a world map with each nation numbered from 1-10.

Well, Gary spoke at a recent prophecy conference along with Chuck Missler giving an update on how fast this global government is coming into being.

If you'd like a copy of this DVD, it's available for a gift of any amount this month. Just ask for it by name: **Global Government Unleashed!**

### **The Obama Deception...New DVD!**

President Barack Hussein Obama has been in office for less than 90 days and we have learned some interesting things. At the beginning of this new DVD, Obama states, "Contrary to the rumors that you've heard, I was not born in a manger. I was actually born on Krypton, and sent here to save the planet." We had never witnessed such man-worship before.

Obama wants everyone between the ages of 18 to 21 serve a mandatory 3-month basic training. We're not talking about military here, but civilians. This is what Hitler did! Obama pledged he would resume the prosperity and partnership between the US, Canada, and Mexico (NAFTA...). This is what Bush got started, and will lead to the loss of the sovereignty of our nation and to the new Amerodollar.

We need to understand something here, and this may shock you, but by now it shouldn't. For some time now, presidents have really been puppets for the elite New World Order boys. Kennedy started out this way, but later went against the grain, and you know what happened to him. Presidents now are little more than corporate pitchmen who take all the political heat while the controllers remain in the shadows, safe from public scrutiny. The American people have been duped again.

President Bush played his part by bringing us into a financial downfall. The people wanted change! In comes Barack Obama. He played the part to make the American people believe that finally, great change is here! But Scripture tells us you will know them by their fruit. When you put away all the flowery words, all the rhetoric, what he does for the American people is all that counts, starting with the truth.

Obama turns out to be a notorious liar. He promised we would get out of Iraq immediately, then later, he changed the story to 16 months. But after he was inaugurated, the story changed again. He said he would "look at bringing some of the troops home in 16 months." Two weeks later his story had changed again. Now the administration would "look at bringing the troops home in 23 months."

And then he sent another 30,000 troops into Afghanistan; then more missile systems into eastern Europe. He kept President Bush's secretary of Defense, Robert Gates. Obama swore that he would repeal the Patriot Act, but then he voted for its reauthorization. At first he also came against the Bush Administration's illegal wiretapping of the American people, but then he voted to legalize it! Candidate Obama told desperate factory workers in speech after speech that he was going to renegotiate NAFTA to make it more fair for the American workers. He said, "It is absolutely true that NAFTA was a

mistake." But then his campaign was caught sending out memos to top corporate leaders telling them not to worry, and that it was just campaign rhetoric. Campaign rhetoric? Is that what they're calling it now? No, this would be a lie.

He said he was going to bring us transparency and a balanced economy. He said he was not going to have lobbyists, and that he was going to clean up government. Yet point by point by point, within the first month of his inauguration, he has lied, deceived, and cheated the American people.

The people of the United States and the world were filled with hope that Obama was the real deal. During his first week in office, he signed an executive order supposedly closing down Guantanamo Bay and other secret prisons, which were torturing people. Then the press actually had a chance to read the executive order and were shocked to find that the executive order only said that Obama was **thinking** about closing Guantanamo in a year. But worst of all, the executive order continued the practice of "rendition", which the LA Times called "secret abductions".

There's not enough room in this newsletter, or even in a 2 hour film made on this, to cover all of Obama's lies, because there are new ones every day. But let's cover this one. Barack and his people made the cornerstone of his campaign keeping lobbyists and donors out of his administration. Yet within hours of being elected, Obama did a 180, and filled the White House and Federal Government with lobbyists and donors at all levels.

Alex Jones has done it again. A new film entitled: **The Obama Deception**. Available this month for a gift of any amount. And do feel free to make copies and share with others.

### **Michelle Obama's Vegetable Garden...**

You might have caught on the news how First Lady Michelle Obama is planting a vegetable garden at the White House. Obviously, they don't need the food. Michelle told reporters the reason she's doing this was because she wanted her children to eat healthy. Oh come on now! The President's kids can't eat healthy unless they grow their own food?

After taking the course by Carrie Parks, **How To Tell When Someone is Lying**, I believe I caught Michelle at one. This is what's called a lie of omission (leaving something out).

Now, Michelle knows what's going on and what the American people are soon to experience. She knows of the New World Order's plans to decrease the population of this planet down to about 20% of what it is now, and that starvation is a part of that plan. (If you haven't yet seen the DVD entitled **The Future of Food**, you should! Available for a gift of any amount this month.) She also fully understands that anything she does publicly is going to make the news. As it did. Could it be that Michelle has a heart for the American people and is hoping many will follow suit and start planting their own gardens? I really believe this was her purpose! Thank you Michelle!

### **Seed purchases at an all time high...**

This is one of those items that made it on the news but later not reported on again. No doubt the reason for this is that they do not wish to create a panic.

But what was reported is that never before has there been such a sale of seeds! Food seeds! Gee, ya think people are beginning to figure things out?

### **Food Shortages in America...**

Nothing is being said on the news about this, but if you were to do a word search on a good search engine such as Google, guess how many websites pop up simply using the words, "food shortages in America"? Ready for this? Approximately 1,550,000! Still in denial concerning the New World Order's agenda? Or that we're living in the latter part of the last generation? Or that maybe, just maybe you need to do something to prepare? De-nial is not a river in Egypt! Also this... There's a major drought right now. Seems like all over the globe, any area that grows large food supplies is in drought. Oddly enough, there's other areas experiencing major floods! California grows major crops. Normally, they water these crops from the Colorado River. No more! They're forcing farmers to use their wells, which costs much more. Another problem is that not all farmers out there even have wells! Not to mention the fact that wells can dry up! Expect major food price increases just months from now.

### **But God is going to meet my needs...I have no need to prepare...How Selfish!**

I recently got a call from a young man who told me he needed to do nothing to prepare for the hard times coming. My response? "Oh, I'm sorry, I didn't realize you were so selfish, thinking only of yourself."

What about all the unsaved people who are hurting right now who will listen to you as you help them! Jesus taught us, if someone comes to us hungry, feed him! If someone needs clothes, clothe him. He said if we do this for others, we've done it for Him! If we say, "Go thy way and be at peace," all heaven just weeps!

### **Pulling Out All Stops...**

What are stops? You've heard the term before, right? It's a water term. You have rubber stops in your sinks. Keeps the water from running out. These are also in boats. When I was a kid, my dad, my mom and I would go fishing from time to time in our small 15 foot boat. On one such occasion, we got caught in a storm. We were quite a ways out. The waves got bigger and bigger, and soon our small boat began to take on water. We had a couple of cans in that small boat in case we ever had to start bailing. We started using those cans but still, the boat was taking on more water than we could bail out! My mom got kinda scared. Then my dad, realizing we could no longer bail out enough water to keep the boat from sinking, shouted out to me, "Jimmy! Pull out those plugs on the back of the boat". Now, I had seen these before but had no idea what they were for! All I knew was if I pulled out those plugs, we would only go down faster! So I was hesitant. Too hesitant. So my dad jumped back there and pulled them both out! Then he gave it full throttle and took off! The boat moved slowly at first, but it gradually started to pick up speed and to my surprise, as it did, the water started to recede! Within a couple of minutes, there was hardly any water left in the boat! My dad told me to put the stops back in which I happily did! The storm had almost ceased as fast as it came, and we went back to fishing again.

Sometimes, it becomes necessary for us to pull out all stops in order to fish again. Jesus said, "Follow me, and I will make you fishers of men." (Matt. 4:19 & Mark 1:16) Are we really following? Have we really pulled out all stops?

## The Atheism Debate...

Have you witnessed to an atheist lately? Every year during the week of April Fools Day (also National Atheist's Day now), I air this amazing debate between Ray Comfort (a Christian) and Ron Barrier (an atheist). So believe it or not, we have Comfort vs. Barrier! How bizarre is that! And it's done every April Fools Day! The Scriptures tell us, "The fool says in his heart, there is no God." If you'd like a copy of this amazing DVD, it's available for a gift of any amount this month. Simply ask for the DVD entitled: **The Atheism Debate.**

## HIV in DC

It's now been reported that 1 out of 14 people in Washington D.C. has HIV. That's about 3 percent, but this report is going by only those who have been tested for the virus. Another report on the news stated it's probably more like 20 percent. That's 1 out of every 5 people you come into contact with in Washington D.C.

## RSS feeds now available...

Can't catch the broadcast? Well, you can always go on line and listen to it whenever you want, but now it's even easier yet!

Visit our website at <http://www.cultivateministries.org>. On the right-hand side of the webpage is the Main Menu. At the bottom of the menu are two links, Podcast and Newsletter, with little "chicklet" icons next to them. That means you not only can read the newsletter online and listen to the broadcasts online, but you can be notified when new ones are available! Click on the links to go to pages where you can listen, read, or sign up for the automatic internet feed.

## Our Pricing and Newsletter Policy...

Over the last few months there's been some abuse concerning the requesting of items. Some have ordered much more than they pay for. Well, for the most part, I've just blown it off and sent their requests off anyway. But because of abuse or just misunderstanding, I saw the need to simply clear things up. The following is our pricing and newsletter policy.

- As our resource list indicates, unless otherwise posted, or personally prearranged for specific purposes, the prices for DVDS are \$20.00 and CDS are \$5.00.
- Offers mentioned on the air for a gift of any amount are good for that week only. Otherwise, anyone could listen to the broadcast for a year or more, then order everything aired for a gift of any amount thus really hurting this ministry.
- Items mentioned in the newsletter offered for a gift of any amount works the same way. The offer is good for that month only. Otherwise, anyone could collect the newsletters for a year or more and order everything offered for a gift of whatever thus also shutting down the ministry.
- And of course, in both situations, offers are good for only one per household. Otherwise anyone could request 100 or more of the items offered for a gift of any amount thus also shutting down this ministry. This has been attempted before.
- It's a common sense thing really. Most ministries never offer anything for a gift of any amount. We do. We also do something else most ministries do not. We encourage duplicating of CDS and DVDS for you to share with others! We also offer a special discount for ordering 10 or more CDS or DVDS of the same title. This discount is 50% off! We do this

for those who are unable to, or wish not to duplicate copies themselves yet wish to share copies with others.

- Also, sometimes people wish to purchase CDS/DVDS and have us mail them to others. We're happy to do this! Just be sure to clearly print the name/s and address/s of those you wish us to mail to.
- Concerning our newsletters, we often receive requests from people to add a list of others to the mailing list. Sometimes hundreds! It would not be a good stewardship to send things to people who have not asked for them and in most cases, don't want them. Therefore, our policy is that only those who contact us (individually themselves) through our P.O. Box address may start receiving the newsletter. This newsletter is mailed out monthly and must be renewed at the end of each calendar year, no later than December 15<sup>th</sup>. The newsletter is free. However due to the costs of this ministry, airtime, mailing etc. any gifts of support are greatly appreciated.
- The newsletters may also be read via our website at: [www.cultivateministries.org](http://www.cultivateministries.org). You may also feel free to make copies of any parts of the newsletters to share with others!

Thank You!

## Is this the end of Cultivate Ministries...?

Like most of you, every month I take a look at my bank statement. I have no savings account or anything, just the ministry checking account. For quite some time, the ministry has been holding its own. Not getting ahead, but not getting behind either. That was until last month's bank statement arrived. It was down a thousand dollars! I was shocked to say the least! I suppose I should have seen this coming, but not this much, this fast! Now, with many of these larger ministries out there, a thousand dollar loss may not be a big deal. But for this ministry, it's devastating! If it happens again this month, I may have to shut everything down. I'll let you know in next month's newsletter what the status of things are. Meanwhile, if you guys could help out a little each month, it sure would be greatly appreciated. Thanks!

## Time for a New Intro...

The taped introduction I've been using for 25 years for the broadcast has worn out, and I need a new intro. If you or someone you know can help make a new intro for the broadcast, please contact me. Thanks!

## Ending Note...

Again, I just want to thank you guys ever so much for helping to keep this ministry going, through your prayers and gifts of support. If there is any way I can help any of you, feel free to contact me.

Yours because His:

- Jim Zilonka
